RAMAIAH UNIVERSITY OF APPLIED SCIENCES

GREENPLAN CAD

Explorer event by RCC

GreenPlan CAD is a unique design challenge where budding civil engineers craft sustainable site layouts using AutoCAD. Participants must integrate eco-conscious solutions like rainwater harvesting, solar orientation, and green zones into their designs. This hands-on event sharpens creativity, space management, and drafting skills while encouraging innovative approaches to sustainable development.

INSTRUCTIONS:

- **Open to all students.**
- **Teams of 2 only**
- **Teams must follow the provided site dimensions and design brief.**
- **Only AutoCAD software is permitted for final drafting.**
- **Designs must include at least 3 sustainability features (rainwater harvesting, solar orientation, green spaces).**
- **Plagiarism or copying from online sources will lead to disqualification.**
- **Judges' decision will be final.**

Entries will be evaluated on sustainability integration, space utilization, technical drafting, aesthetics, and clarity.

The event provides an excellent opportunity for participants to network with industry experts and receive valuable mentorship.
