RAMAIAH UNIVERSITY OF APPLIED SCIENCES

AIAA

MICRO RC PLANE

Visionary Event by AIAA

Participants will design and build a lightweight but strong RC model with the given constraints and fly it through a obstacle course to score points and prove their design and piloting skills.

INSTRUCTIONS:

- **Open to Diploma and UG students**
- **Teams of 2–3 only.**
- **Models must follow sizing and design specifications.**
- **No commercial parts allowed.**
- **No modifications permitted after Round 1 submission.**
- **Models exceeding constraints will be disqualified.**
- **Participants must bring their completed models and necessary tools.**

Entries will be evaluated on build quality, design clarity, load capacity, and efficiency.

Hands-on engineering challenge enhancing design thinking, skill development, and structural insight.
