RAMAIAH UNIVERSITY OF APPLIED SCIENCES

THE AERONAUTICAL SOCIETY OF INDIA
RUAS STUDENT CHAPTER

SKYCRAFT

Creator event by AeSI

Take flight with SkyCraft, a celebration of aviation's past, present, and future. This event challenges students to blend creativity with engineering by building physical models of legendary aircraft, futuristic concepts, or original designs. From historic icons to visionary prototypes, SkyCraft is where imagination meets aerospace innovation.

INSTRUCTIONS:

- Open to all students
- Participation can be individual or in a team (2-4 per team).
- Teams must bring all necessary items for presentation and exhibition.
- The abstract format is available for download on our website
- Abstract format may be creatively adapted but must follow the given structure.
- Original designs must be unique and clearly explained; plagiarism leads to disqualification.
- Time limits for presentations will be enforced.
- At least one team member must present.
- All materials must be submitted before the event begins.
- Winners must submit their models.
- Judges' decisions are final.
- Dress Code: Formals.

Models will be evaluated on design accuracy, neatness and attention to detail, research depth, technical understanding, abstract quality, and clarity of presentation.

After evaluations, all models will be displayed in an open exhibition for students, faculty, and visitors.
