RAMAIAH UNIVERSITY OF APPLIED SCIENCES

THE QUANTUM QUEST

Explorer event The Literary Club

What lies at the intersection of paths built by words and the knowledge of humans? Whether you seek the treasure or find the thrill in solving riddles, The Quantum Quest is a treasure hunt that entangles you in one game, with many riddles. Seek a path from the intersection of the first riddle, but fret not, for the roads diverge and converge... all roads lead to Rome. And once the winner arises, the game doesn't end, for there are champions, three! And everyone shall have a chance to be one of the two: the Treasure Seeker or the Thrill Seeker. Both shall stand beside the winner. But there is no promise that there being only three treasures is the truth or a lie, when sure sees trinkets as treasure a seeker's eye.

INSTRUCTIONS:

- Open to all students
- This is an individual event.
- Clues must be solved in order
- Checkpoints logged with volunteers
- No tampering, use of AI, or disrespectful behavior.

The treasure finder wins; runner-up positions depend on the on-spot criteria.
